

The graph displays the evolution of 10 lineages over 20 generations. The lineages are represented by different colors: red, blue, orange, grey, yellow, purple, teal, pink, green, and light green. The x-axis is labeled 'Generation' and ranges from 0 to 20. The y-axis represents a fitness or value metric, with grid lines indicating relative levels. The lineages show various patterns of change, including rapid increases, plateaus, and decreases.
